

Susan Hampton, M.S., SPHR – Owner & Principal, Hampton & Associates

Ms. Hampton is the founder and owner of Hampton & Associates, Human Performance Consulting, located in Bedford, TX. With over 25 years of experience designing and implementing organizational, team and leadership development programs in corporate aerospace environments, her work focuses on human resource problem solving and organizational development.

Prior to forming Hampton & Associates in 2009, Susan served as Director of Engineering - Knowledge Management & Technical Competency at Bell Helicopter. She also served Bell as Director of Program Integration for Commercial & Military Programs and as Director of Human Resources for Engineering. Her other management experience includes leading Learning and Strategic Organizational Development for Northrop Grumman's Integrated Systems Sector and Employee, Management & Organizational Development for Vought Aircraft.

Susan is known for her accomplishments in identifying strategic performance improvement initiatives and building practical implementation plans that produce results aligned with client goals. She has an extensive background working with company leaders in confidential individual coaching environments utilizing a wide variety of highly recognized and professionally validated assessment instruments.

She has designed and successfully implemented many leadership development and team-based learning programs, working with team leaders at all levels to develop relevant knowledge, skills and abilities necessary to sustain effective team performance and continuous improvement.

Her long-term involvement in industry benchmarking of Knowledge Management, Change Management and Program Management best practices allows her to offer leading edge approaches that may be smoothly integrated into existing client processes.

Susan holds a B.A. degree in Psychology and a M.S. degree in Human Relations & Business. She is certified as a Senior Professional in Human Resources and is a graduate of Leadership Texas.
